SUMMARY

Driven B.Tech in Computer Science Engineering student with a flair for front-end development and mastery in HTML5, CSS (including Tailwind CSS), and JavaScript. Proficient in crafting dynamic, responsive, and visually engaging web interfaces. Possesses a strong grasp of core programming concepts with specialized expertise in C++. Committed to continuous learning and staying updated with the latest technologies. Enthusiastic about contributing to groundbreaking projects and advancing in the field of software development.

EDUCATION

Bachelor Of Technology

IIMT Engineering College (Affiliated to AKTU)

2021 - Present Meerut, UP

12th Grade

Cambridge Senior Secondary School (Affiliated to CBSE)

2020 - 2021 Buxar, Bihar

EXPERIENCE

Intern as full stack developer

Robust Results Private Limited 10/2022 - 12/2022 Kanpur, UP

- Designed and developed dynamic web applications using PHP, JavaScript, and MySQL to meet project requirements.
- Employed responsive design techniques to ensure compatibility across various devices and screen sizes.
- Created interactive user interfaces with JavaScript enhancing user experience and engagement.
- Demonstrated strong problem-solving skills and attention to detail in resolving technical challenges and implementing innovative solutions.

CERTIFICATION

Full stack developer

Certified from Robustresults pvt ltd.

STRENGTHS

- Collaborative Attitude**
Emphasized capacity to work seamlessly within multidisciplinary teams.
- Problem-Solving Skills**
I have ability to analyze issues, devise innovative solutions.
- Time Management**
I have ability to prioritize tasks, manage deadlines, and optimize workflows.

PROJECTS

Music streaming platform

01/2024 - 03/2024 Delhi, India

As a passionate developer, I took the initiative to create a music streaming platform from scratch, spearheading the frontend development process.

- This project is still under development as some backend part is yet to be done.
- Designed and developed the frontend interface for a music streaming platform, focusing on user experience and visual appeal.
- Utilized HTML5, CSS (including frameworks like Bootstrap), and JavaScript to create interactive and dynamic user interfaces.
- Implemented responsive web design techniques to ensure compatibility across various devices and screen sizes.

DSA Voyage

03/2024 - Present Delhi, INDIA

DSA Navigator is a dynamic web platform designed to guide learners from novice to advanced levels in mastering Data Structures and Algorithms (DSA).

- Developed a comprehensive website titled "DSA Navigator" aimed at guiding beginners to advanced learners in Data Structures and Algorithms (Dsa).
- Designed the website's layout and structure using HTML, CSS, and JavaScript, ensuring a user-friendly experience.
- Provided valuable tips and resources for career development in the software field, including placement preparation strategies.
- Created detailed roadmaps for DSA learning, catering to learners at different proficiency levels. Incorporated interactive elements for problem-solving practice, including integration with platforms like LeetCode.
